

Dog FAQ's

1. HOW IS OXYGANIC USED?

Oxyganic is intended for use as a topical solution or spray. Spray a light mist of Oxyganic into your dog's drinking water twice daily or when adding or changing water. Re-spray the water every time you fill the water bowl. {And don't throw that old water out! Pour old water on your plants for enhanced plant growth!}

2. CAN OXYGANIC WORK AGAINST DOG SKIN PROBLEMS?

Yes, it eliminates the accumulation of skin oils, and prevents bacteria build-up which causes unpleasant odors. Spray area with Oxyganic as needed. Let air dry. Again, it is very easy to use.

3. CAN OXYGANIC HELP AGAINST ITCHING PROBLEMS FOR MY DOG?

Yes, for sores, itches, hot spots, wounds, spray Oxyganic on the affected area twice per day, 2-3 sprays each time; or, bathe the animal. It's easy to use and very effective.

4. CAN OXYGANIC ELIMINATE OR REDUCE UNPLEASANT DOG ODORS?

Even serious odors will be eliminated. Rather than mask or cover up odors, Oxyganic eradicates the bacteria responsible for the odor, thereby eliminating odor at the source. It prevents bacterial build-up which causes unpleasant odors. Spray pet in problem area{s} with 2 to 3 sprays of solution as often as necessary; or bathe the animal.

5. CAN OXYGANIC BE USED TO PREVENT DENTAL PROBLEMS IN DOGS OR TO ELIMINATE BAD DOGGY BREATH?

Yes, it can as a preventative measure by placing this daily in their water bowl. It can also be used as an advanced or accelerated method measure of cleaning teeth or gums. Simply mix a small amount with water and use it gently brush and clean teeth and gums.

6. CAN OXYGANIC HELP WITH CARING FOR MY DOGS EARS?

Yes, clean ears after bathing. Spray Oxyganic once in each ear. For pets with floppy ears spray Oxyganic 3 times in each ear, twice daily, as a regular routine. It's easy to use and very effective.

7. CAN I USE OXYGANIC TO BATH MY DOG?

Yes, shampoo your dog as you normally do. Then add a small amount of Oxyganic to one gallon of final rinse water. If possible, keep the dog wet with the rinse solution for several minutes.

8. CAN OXYGANIC BE USED ON DOG WOUNDS?

Yes, simply spray Oxyganic on affected areas twice per day, 2 to 3 sprays each time until the wound is healed. It's easy to use and very effective.

9. HOW DOES OXYGANIC WORK AGAINST HARMFUL BACTERIA FOUND IN DOGS THAT WEAKEN THE IMMUNE SYSTEM?

Increased natural oxygen delivered by Oxyganic Direct Oxygenation provides unusually high amounts of natural oxygen. Natural oxygen is produced as a by-product of the micro-organisms present in the Oxyganic water medium. Direct oxygenation aids, restores and replenishes beneficial bacteria. Harmful, infectious micro-organisms cannot survive in the highly oxygenated environment created by Oxyganic. Natural oxygen also combines with food, facilitating permeability into cells and better vitamin and mineral absorption.

10. ARE THERE ANY CONCERNS ABOUT USING OXYGANIC FOR MY DOG CARE?

No, since Oxyganic has NO known side effects. Our product is 100% natural. Do not store Oxyganic in direct sunlight, extreme heat, or in freezing conditions as this may reduce its effectiveness.
