

Daily Use: For reduction of stress related problems; decreasing mortality rate of hatchlings, fledglings, nestlings; prevention and treatment of yeast infections of the crop; reducing secondary yeast infections from antibiotic use; strengthen feathering with less damage from confinement; and more!

Add ¼ teaspoon of **Oxyganic**® to your birds' drinking water daily or when adding or changing the water. You must add **Oxyganic**® to drinking water EVERYDAY, as a preventive.

Topical Care

Spray **Oxyganic**® onto affected area twice a day, 2 to 3 sprays, until problem subsides.

Cage Cleaning

Use **Oxyganic**® to reduce buildup of pathogens resulting from confinement and to prevent the spread of disease from bird to bird, from bird to pets, bird to humans, or vice versa. Spray cages twice daily with **Oxyganic**® and use a paper towel to remove debris, as needed. **Note:** Unlike with other products, birds do NOT have to be removed when cleaning, because **Oxyganic**® is entirely safe and non-toxic to you and your birds. Follow your normal cleaning procedures, but finish up with **Oxyganic**®, spraying over entire surface.

Introducing New Birds

Use **Oxyganic**® to reduce spread of disease from new birds to existing birds, or vice versa, and to reduce stress related problems due to environmental changes. This applies to both quarantine periods as well as when introducing new birds to a cage with existing birds. Spray cages twice daily with **Oxyganic**® and use a paper towel to remove debris, as needed. **Note:** Unlike with other products, birds do NOT have to be removed when cleaning, because **Oxyganic**® is entirely safe and non-toxic to you and your birds. Follow your normal cleaning procedures, but finish up with **Oxyganic**®, spraying over entire surface.

Removal of Broken Feathers, Skin Tears and Wounds

Clean affected area twice daily with 2 to 3 sprays each time, until areas are healed.

Bird Baths

Spray surface with **Oxyganic**® with 3 to 5 sprays, depending on size of the bird bath. Repeat when adding or changing water.

Humming Birds

For humming birds, add ¼ tsp to each new feeder solution.

Oxyganic® is neither a drug nor a chemically manufactured product. It will give you peace of mind knowing you are using a totally safe, painless, non-toxic, and environmentally friendly product. **Oxyganic**® is produced in the USA.
