

**Daily Use:** For prevention and sustained control of gingivitis. Feline Lower Urinary Tract Disease (FLUTD). Infectious peritonitis. Feline Urologic Syndrome (FUS). Feline upper respiratory infections, urinary problems, and more.

**Small Cat** - Add 1/2 teaspoon of *Oxyganic*® in your cat's drinking water once to twice daily or when adding or changing water. If using a sprayer, lightly mist entire surface of drinking water once to twice daily.

**Large Cat** - Add 1 teaspoon of *Oxyganic*® in your cat's drinking water once to twice daily or when adding or changing water. If using a sprayer, lightly mist entire surface of drinking water once to twice daily.

You must add *Oxyganic*® to drinking water EVERYDAY as a preventative. If your cat is already experiencing health problems or has poor dental health add 3 teaspoons of *Oxyganic*® to drinking water everyday - until problems are solved. If your cat already has ear or skin problems, you should also order product in a spray bottle.

### Ear Problems

Spray *Oxyganic*® into/onto affected ear to alleviate bacteria and yeast problems as well as to avoid scratching induced bacterial problems. Use a clean dropper, or 3-6cc syringe, to ensure that *Oxyganic*® reaches the source of the infection. Do this 2-3 a day until infection subsides.

**Dental Care** - An effective, easy, and painless solution for gingivitis and gum problems.

Daily use in your cat's drinking water (3 tsp. per day) will reverse this problem. For lengthy pre-existing severe plaque build-up problem, please get your cat's teeth cleaned by your vet. Then adding *Oxyganic*® daily, will prevent future problems. *Oxyganic*® daily in drinking water is an effective and easy method of preventing dental problems.

### Eye Infections

Use dropper, or 3-6cc syringe, with *Oxyganic*® in affected eye, 2-3 times a day, until noticeable improvement. You may treat several times a day if necessary.

### Colitis/Campylobacteria/Stomach Upsets

For existing problems, double daily use suggestions for 3 days or until improvement noticed (usually 3-7 days, then go on your preventative/maintenance suggested usage.

**Urinary Tract Infection. FUS, FLUTD** - bladder stones and infections can be experienced by all cats, male and female.

*Oxyganic*® is the **only preventative and non-antibiotic treatment on the market!** Prevention saves very painful experiences for your cat (painful urination, stone passage and/or surgical removal of stones).

... "I use *Oxyganic*® daily as both a preventative and a treatment for UTIs."

Loretta Hyde. Founder and Kennel Manager. Animal Rescue League of El Paso

**Skin Problems or Mange/Ringworm** - for redness or "itchy skin/" acne, and abscesses, spray *Oxyganic*® on affected area. 2-3 sprays, 3 times a day until skin problem is healed. For Ringworm, spray **immediately and isolate cat** to avoid spreading to other animals.

**Skin lacerations/wounds** - Irrigate the wound with *Oxyganic*® then spray 2-3 sprays each time, 3 times a day until problem is healed. Wounds heal faster with *Oxyganic*®,

"...It seems to speed the healing of wounds in half the time."

Nancy Harvey. D.V.M. Licensed Veterinarian in private practice. El Paso. Texas

"... Because we see a lot of trauma wounds at ARL, we know how impressive *Oxyganic*® is to such wounds. It has increased the healing process in half the time if not sooner." Loretta Hyde, Founder and Kennel Manager, Animal Rescue League of El Paso

You will have peace of mind knowing you are using a totally safe, environmentally friendly green product, made in the USA.
