

Daily Use: For prevention and sustained control of: gingivitis, feline lower urinary tract disease (FLUTD), infectious peritonitis, feline urologic syndrome (FUS), feline upper respiratory infections, urinary problems, and more.

Small Cat - Add 1/2 teaspoon of *Oxyganic*®, or lightly mist surface if using sprayer, to your cat's drinking water once to twice daily. Repeat when you add or change water.

Large Cat - Add 1teaspoon of *Oxyganic*®, or lightly mist surface if using sprayer, to your cat's drinking water once to twice daily. Repeat when you add or change water.

You must add *Oxyganic*® to drinking water EVERYDAY, as a preventive. If your cat is experiencing health problems or has poor dental health, add 3 teaspoons of *Oxyganic*® to drinking water everyday - until problems are solved. If your cat has ear or skin problems, you should consider ordering a spray bottle of *Oxyganic*®.

Ear Problems

Spray *Oxyganic*® into/onto affected ear to alleviate bacteria, yeast problems, and to avoid scratching induced bacterial problems. Use a clean dropper, or 3-6cc syringe, to ensure that *Oxyganic*® reaches the source of the infection. Do this 2-3 times a day until infection subsides.

Dental Care

For an effective, easy, and painless solution to gingivitis and gum problems, add 3 tsp. per day to your cat's drinking water. For lengthy, pre-existing or severe plaque build-up problems, please get your cat's teeth cleaned by your vet. Then add *Oxyganic*® to their drinking water daily to prevent future problems.

Eye Infections

Using a dropper, or 3-6cc syringe, put *Oxyganic*® in the affected eye, 2-3 times a day, until noticeable improvement is seen.

Colitis/Campylobacteria/Stomach Upsets

For existing problems, double daily use suggestions for 3 days or until improvement noticed (usually 3-7 days), then go to the preventive/maintenance daily dose.

Urinary Tract Infections, FUS, FLUTD

Bladder stones and urinary tract infections may be experienced by all cats, male and female. *Oxyganic*® is the only preventive, non-antibiotic treatment on the market! Prevention reduces painful urination, stone passage, and/or surgical removal of stones. --"I use *Oxyganic*® daily as both a preventive and a treatment for UTIs." Loretta Hyde, Founder and Kennel Manager, Animal Rescue League of El Paso .

Skin Problems, Mange, or Ringworm

For redness, "itchy skin", acne, or abscesses, two to three sprays of *Oxyganic*® on affected areas 3 times a day until skin problem is healed. For ringworm, spray immediately as above and isolate cat to avoid spreading to other animals.

Skin Lacerations or Wounds

Irrigate the wound with *Oxyganic*®, and then spray 2-3 sprays, 3 times a day, until healed. Wounds heal faster with *Oxyganic*®! --"It seems to speed healing of wounds in half the time." Nancy Harvey, D.V.M. Licensed Veterinarian in El Paso, Texas --"Because we see a lot of trauma wounds at ARL, we know how impressive *Oxyganic*® is to such wounds. It has cut the healing process to half the time, if not sooner." Loretta Hyde, Founder and Kennel Manager, Animal Rescue League of El Paso.

Oxyganic® is neither a drug nor a chemically manufactured product. It will give you peace of mind knowing you are using a totally safe, painless, non-toxic, and environmentally friendly product. *Oxyganic*® is produced in the USA.
