

Daily Use: For prevention and sustained control of digestive, dental, or skin problems; bad breath; dog odors; infections and/or possible exposure to infections.

Small Dog – (Under 15 lbs) Add ½ teaspoon of *Oxyganic*® in, or if using a sprayer, lightly mist surface of your dog’s drinking water once or twice daily, or when adding or changing water.

Medium Dog – (15 to 45 lbs) Add 1 teaspoon of *Oxyganic*® in, or if using a sprayer, lightly mist surface of your dog’s drinking water once or twice daily, or when adding or changing water.

Large Dog – (45 to 100 lbs) Add 2 teaspoons of *Oxyganic*® in, or if using a sprayer, lightly mist surface of your dog’s drinking water once or twice daily, or when adding or changing water.

X-Large Dog – (100+ lbs) Add 3 teaspoons of *Oxyganic*® in, or if using a sprayer, lightly mist surface of your dog’s drinking water once or twice daily, or when adding or changing water.

***Oxyganic*® is both a preventative and a treatment product for your pet dog**

Ear Problems – infection or smelly ears (yeast infections – floppy eared dogs very prone to these problems)

Use *Oxyganic*® in a clean dropper or 3-6cc plastic syringe, to ensure the product reaches the source of the infection, 2-3 times daily until the infection subsides, usually 1-3 days. Then daily, spray (2 or 3 sprays) in affected ear as a preventative. Floppy eared dogs need *Oxyganic*® in their ear(s) daily! Yeast Problems (smelly ears) may need to be professionally cleaned before starting *Oxyganic*® treatment.

Dental Care/Bad Breath – An effective, easy, and painless treatment for gingivitis and chronic gum problems.

Daily use in your dog’s water is an easy and effective method to help prevent dental disease and will reverse the problems and lengthen time between dental cleanings. For severe pre-existing plaque build-up, please get dog’s teeth cleaned by your vet. Then, add *? according to size chart, to their water bowl. Use *Oxyganic*® daily as well for inflamed gums – spray *Oxyganic*® directly onto gums twice daily and add to drinking water, per size chart.

Eye Infections

Saturate cotton ball with *Oxyganic*® and dab on affected eye twice daily until you see noticeable improvement. This is in addition to your daily use in the dog’s drinking water.

Colitis and Stomach Upsets

For existing problems, double daily amount used in drinking water suggestions for 3 days, or until improvement noted (usually 3-7 days), then return to recommended dosage.

Bladder Infections and Prevention -- Bichon Frise, Lab Retrievers, and Yorkshire terriers are always prone to bladder problems, however, bladder stones and infections can be experienced by all dogs.

Oxyganic® is the only preventative and non-antibiotic treatment on the market! Prevention saves very painful experiences for your dog (stone passage and/or surgical removal and painful urination or retention).

Skin Problems – for redness or “itchy skin”

Spray *Oxyganic*® on affected area(s) 2-3 sprays, 3 times a day until skin problem is healed.

Mange/Ringworm

Spray immediately when problem is noticed to prevent spreading. Spray *Oxyganic*® 2-3 sprays each time, 3 times a day until problem is healed.

Skin Lacerations/Wounds

Irrigate the wound with *Oxyganic*® then spray 2-3 sprays 3 times a day, or using saturated cotton ball, dab wound 3 times a day. Wounds heal faster with *Oxyganic*®.

“...It seems to speed the healing of wounds in half the time.” Nancy Harvey, D.V.M., Licensed Veterinarian in private practice, El Paso, TX
 “...Because we see a lot of trauma wounds at ARL, we know how impressive *Oxyganic*® is to such wounds. It has increased the healing process in half the time if not sooner.” Loretta Hyde, Founder and Kennel Manager, Animal Rescue League of El Paso.

Doggy Odor

By adding a small amount of *Oxyganic*® to final rinse water when bathing your dog, odors are controlled. Between baths, if odor returns, spray with *Oxyganic*® to eliminate.

Oxyganic® is a clinically proven product and unlike antibiotics, can never become ineffective, PLUS ,is a green product with NO side-effects!

Oxyganic® is not a drug nor a chemically manufactured product. You will have peace of mind knowing your are using a totally safe, painless, non-toxic, environmentally friendly product. Also that the product is produced in the USA.
