Cynthia,

This is the email I have written my friend Patricia Flynn, she lives in Pennsylvania and we shall see if she orders.

Nancy

Subject: Great Product

I thought I would tell you about this product I have been using on my birds for two years now. It is called Oxyganic and I just recently tried the dog formula and was very impressed with it. Nyla has had chronic ear problems and has been to the vet for it and the ointment I had been using was just temporary in its effectiveness, well I got the product on Friday and did not pay attention to her ear again until yesterday and all the scabs and dried blood and ooze were gone and her ear was perfectly clean, She was still itchy there so I took a dropper with the full strength product and put a few drops in each ear and today she is not scratching and ear is clean.

I also sprayed her mouth with the product as her breath was so bad no one wanted her near them, that is also greatly improved, and I am also adding it to the drinking water for all 3 dogs, it comes in concentrate to be used either straight or mixed with water, it is an awesome product

On my birds I have been impressed also their feathers are brighter and prettier colors, and all have been very healthy, so that is why I decided to try on the dogs, Nyla will be 8 in June and Devil will be turning 9 in October. Please visit the website and see what you think? It is all natural and will not harm pets.
