

November 18, 2005

I have worked as a veterinary technician at Country Club Animal Clinic for over four years. We routinely use Oxyganic to treat all kinds of wounds and infections in dogs, cats, birds, and other exotics. This product has proved to be effective in promoting healing with better overall results than other traditional methods used alone.

A handwritten signature in black ink, reading "Jenna Alberts". The signature is written in a cursive style with a horizontal line underneath the name.

Jenna Alberts
